SUBJECT INDEX FOR VOLUME 33

abortion, risks and employment, 795–800

accidents, motor vehicle injuries in Quebec (1983–1988), 415–421
children and traffic, 765–769
among the elderly, 947–957

adolescents, and AIDS prevention, 11–23
attitudes towards abortion, 77–82
sexual behaviour in Norway, 207–213

AIDS, and hospital staff, 239–248
research in central Africa, 749–763
research in Africa, 771–794
health education, prostitution and health beliefs about AIDS among prostitutes, 963–966
and social disintegration, 1155–1162
among Bangkok women, 1287–1293
(see also HIV infection)

alcohol, among Australian Aboriginals, 655–671
and medical intervention, 1053–1061

attractiveness, and professional judgement, 95–96

Australia, self-harm among Aborigines, 655–671

benzodiazepines, withdrawal symptoms, 587–596

bereavement, the effect of widowhood, 1063–1070

birth control, contraceptive distribution in Nigeria, 321–326
and abortion in the U.S.S.R., 841–848
and social class in Sicily, 885–895
and genetic disease in Saudi Arabia, 1295–1302

brain death, 215

breast feeding, changing patterns, 627–634
and mastitis, 701–705
smoking and type of delivery, 1391–1397

Canada, health discrepancies in rural Quebec, 355–360
mortality and morbidity among the Plains Natives, 381–393
regional variations in traffic accidents, 415–421
allocation of health care resources, 489–500
community and mental health services, 729–739

cancer, and quality of life, 91–94
factors of survival, 177–183
quality of care among children, 249–256
randomized controlled trials, 569–577
symptom distress, 1229–1240
mortality predictions, 1379–1383

cardiac disease, and community intervention, 71–76
risk factors in Norway (1966–1985), 423–428
risk indicators among the young, 1171–1178

child birth, traditional Yemen practices, 959–962

child health, quality of care among cancer patients, 249–256
infant mortality among immigrants, 327–334

and use of general practice services in Finland, 1023–1028
weening in Nigeria, 1103–1111
and diarrhoea epidemiology in rural Nigeria, 1209–1216
in an Ethiopian orphanage, 1275–1280

China, and social medicine, 217

chronic illness, womens' perspectives, 101–113

clinical research, cancer therapy trials, 569–577

community care, for mental health, 729–739

coping behaviour, and ileostomy, 115–125
and strategies among GP's, 161–166

cost-effectiveness, and cimetidine usage, 275–282

day care, and disease prevention, 859–862

decision making, about smoking, 1343–1347

demography, fertility and nuptiality in West Africa, 849–857
sex and respectability in Sicily, 885–897

Denmark, general practice in the health care system, 471–476
response to air pollution in Copenhagen, 621–626
social networks and longevity, 1189–1195

dentistry, among the Singapore elderly, 201–205
and patient satisfaction, 707–716

diarrhoea, and water quality in Malaysia, 937–946
factors affecting mothers' recognition, 1209–1216

doctor–patient relationship, among cancer patients, 1253–1261

drugs, drug use among physicians, 269–274
and medical intervention, 1053–1061

Egypt, and women's health, 1197–1208

elderly, their assessment according to physical attractiveness, 95–96
and health service utilization, 689–700
the problem of hip fractures, 947–957
and home care, 1081–1089
and social networks, 1189–1195

epidemiology, brain injuries in South Africa, 283–296
in South East Asia, 395–404
regional mortality differences in Spain among the very young, 613–620
the case of mastitis, 701–705
AIDS in Africa, 771–794
abortion in the U.S.S.R., 841–848
smoking and chronic disease in Oceania, 1327–1342
and cancer prevention, 1379–1383
(see also medical geography)

Ethiopia, policy towards traditional medicine, 193–200

ethnicity, versus race in AIDS related sex research, 37–45
and womens' perspectives on chronic illness, 101–113

ethnography, and AIDS, 5–9

familial size, and nutritional status, 1135–1140

family support, in cancer cases, 1253–1261

female circumcision, and education in central Sudan, 637–645

fertility rates, in West Africa, 849–857

Finland, health care services, 225–237
childrens' health and general practice utilization, 1023–1028
hostility and coronary risk, 1171–1178
France, physicians' response to price deregulation, 1221–1228
prescribing behaviour among GP's, 1263–1274

gender, in fertility variations, 1071–1080
stress differences among physicians, 1179–1187
gender practice, and workload, 161–166
Danish methods of payment, 471–476
and ethical decision making, 647–653
and consumer satisfaction, 707–716
intervention over drug and alcohol problems, 1053–1061
French prescribing practices, 1263–1274
(see also physicians)
Ghana, drug knowledge, 83–89
Great Britain, Chernobyl fall-out and perinatal mortality in England and Wales, 429–434
changes in leukaemia mortality in England and Wales, 435–440
sterilization versus segregation among the 'feeble minded' (1900–1938), 449–458
child immunization programmes in the U.K., 501–508
health and behaviour survey, 925–936

handicap, methods of controlling the mentally handicapped, 449–458
health behaviour, and pollution, 621–626
in a general and sporting population, 835–839
health beliefs, 559–568
and coronary disease, 71–76
and behaviour, 925–936
about AIDS in Bangkok, 1287–1293
genetic disease in Saudi Arabia, 1295–1302
about prostatectomies, among the elderly, 1302–1308
health care, and young cancer patients, 249–256
and the consumer ethos, 559–568
drug utilization in the NHS, 681–687
health care services, in Finland, 225–237
delivery systems in New York, 477–487
resource allocation in Canada, 489–500
utilization among the elderly, 689–700
and patient satisfaction, 707–716
manpower allocation in Africa and Latin America, 723–727
planning in Saudi Arabia, 815–824
home care for the elderly, 1081–1089
health inequalities, 361–368
and premature urban mortality, 139–152
their measurement, 545–557
in sub-Saharan Africa, 985–993
health prevention, among injecting drug users, 977–983
health service resources, utilization rates: evidence from a general household survey, 361–368
HIV infection, in the U.S., 1–54
transmission in Thailand, 405–414
and drug use, 977–983
(see also AIDS)

hospice movement, 995–1004
housing, and health in New Zealand, 369–379

ileostomy, and coping behaviour, 115–125
immigration policy, New Zealand and foreign medical graduates, 459–470
immune system, and social psychology, 909–923
immunization, its cost-effectiveness in Sumatra, 185–192
in childhood within the U.K., 501–518
India, assessing quality of life, 91–94
health in an urban slum, 597–603
infertility, and gender differences, 1071–1080
Israel, attitudes towards self-care, 297–308
Italy, attitudes towards abortion, 77–82
fertility control in Sicily, 885–895

Japan, and smoking regulations, 717–721
patterns of self care, 1011–1022

laryngectomy, and quality of life, 1373–1377
lifestyle, sexual behaviour among Norwegian adolescents, 207–213
smoking cessation, 1365–1371

malaria, and Sri Lankan traditional medicine, 153–160
Malaysia, water and health, 937–946
medical anthropology, in the Netherlands, 741–742
medical care services, in Thailand, 1241–1252
medical education, 1163–1170
medical ethics, and family physicians, 647–653
and AIDS research in central Africa, 749–763
medical geography, 339–530
the history of scurvy, 347–353
variations in childhood traffic accidents, 765–769
and home births in New Zealand, 825–834
(see also individual entries)
medical sociology, censorship or bias?, 743–744
mental health, depression among arthritics, 579–585
of rheumatoid arthritics, 605–611, 807–813
Mexico, rural household food expenditures, 1113–1126
migrants, and infant mortality, 327–334
and subsistence agriculture in rural Mexico, 1113–1126
smoking behaviour of migrants in Boston, 1355–1364
mortality, urban variations, 139–152
measurement of, 309–319
and population change, 435–440
among the very young in Spain, 613–620
and cancer control measures, 1379–1383
among mothers from puerperal sepsis, 1385–1390

National Health Service, management of pathology labs, 531–543
and drug usage, 681–687
Nepal, intrahousehold food allocation, 1141–1154

Netherlands, medical anthropology in the, 741–742
home care among the elderly, 1081–1089
New Zealand, housing stress and mental health, 369–379
policy toward foreign medical immigration, 459–470
primary health care in Hokianga, 519–530
and home births, 825–834
Nigeria, contraceptive distribution, 321–326
and drug utilization, 1005–1010
infant feeding patterns, 1103–1111
recognition of childhood diarrhoea, 1209–1216
nursing, and aids patients, 239–248
symptom distress among cancer patients, 1229–1240
nutrition, 1101–1154
in an Ethiopian orphanage, 1275–1280

occupational health, dangerous working conditions, 127–137
stress in general practice, 161–166
in an Indian urban slum, 597–603
the case of female physicians, 967–971
stress and job satisfaction among physicians, 1179–1187
employment and low birth weight in black women, 1281–1286
smoking and unemployment, 1309–1312
Oceania, smoking and disease, 1327–1342
operations management, in U.K. pathology labs, 531–543
organ donors, 1037–1051
organ transplantation, 215

pain, and rheumatoid arthritis, 579–585
Papua New Guinea, distinction between sexual ideology and experience, 897–907
patient rehabilitation, 801–806
patient satisfaction, 707–716
patients' decision making, and rehabilitation, 801–806
Peru, nutritional stress, 1127–1133
pharmaceuticals, and Ghanaian lay knowledge, 83–89
procurement and prescription patterns in Nigeria, 1005–1010
patterns of usage among French GP's, 1263–1274
physicians, and AIDS, 239–248
psychoactive drug use among, 269–274
job satisfaction and stress, 1179–1182
economic behaviour in France, 1221–1228
(see also general practice)
pollution, 441–447
and perinatal mortality in England and Wales, 429–434
and behavioural change, 621–626
preventive medicine, and adolescent AIDS, 11–23
primary health care, and general practice in Denmark, 471–476
in a Maori area of New Zealand, 519–530
and patient beliefs, 559–568
and medical education, 1163–1170
prostatectomy, beliefs among the elderly, 1303–1308
prostitution, and health education, 963–966

quality of life, an Indian assessment, 91–94
following benzodiazepine withdrawal, 587–596
after laryngectomy, 1373–1377
risk, in health care, 55–70
and AIDS among adolescents, 11–23
perception of AIDS among young adults, 25–36
changing factors in Norwegian heart disease, 423–428
rheumatoid arthritis, and work disability, 579–585
social support and depression, 605–611
and social support, 807–813

Saudia Arabia, health planning in, 815–824
parental responses to genetic disease, 1295–1302
scurvy, history of, 347–353
self-help, Israeli attitudes, 297–308
in Japan and the U.S., 1011–1022
sexual behaviour, drugs and HIV, 5–9
and AIDS among young adults, 25–36
and survey methodology, 47–54
among Norwegian adolescents, 207–213
and HIV in Thailand, 405–414
and medical anthropology, 865–907
smoking, 1315–1371
legal rights of non-smokers in Japan, 717–721
and employment status, 1309–1312
and breast feeding, 1391–1397
social medicine, in China, 217
social networks, and breast cancer survival, 177–183
and acute chest complaints, 257–267
and support for arthritics, 605–611
and the elderly, 689–700
threats from AIDS, 1155–1162
and longevity, 1189–1195
social support, and arthritis patients, 807–813
social workers, and AIDS, 239–248
South Africa, traumatic brain injury in Johannesburg, 283–296
South East Asia, and epidemiological transition, 395–404
stress among refugees, 673–680
Spain, infant mortality (1975–1984), 613–620
stress, and post-traumatic disorders among refugees, 673–680
is there a hierarchy?, 1029–1036
Sudan, women's health, 637–645
suicide, among Australian Aborigines, 655–671
Sumatra, maternal tetanus immunization, 185–192
Sweden, attitudes towards abortion, 77–82
the cost of ulcer treatment, 275–282

terminal care, and quality of life as assessed in India, 91–94
changes in hospice development, 995–1004
Thailand, and HIV, 405–414
systems of medical care, 1241–1252

traditional medicine, in Sri Lanka, 153–160
the Tswana system, 167–175
in Ethiopia, 193–200

ulcer disease, cost benefit analysis of treatment in Sweden, 275–282

United States of America, social aspects of AIDS, 1–54
health care delivery in New York, 477–487
breast feeding the first born: changing patterns, 627–634
patterns of self care, 1011–1022

women's health, social support and survival rates among breast cancer patients, 177–183
Islam and health education in rural Sudan, 637–645
mastitis, 701–705
employment and the risks of abortion, 795–800
problems of being a female physician, 967–971
widowhood, 1063–1070
in Egypt, 1197–1208
employment and low birth weight among blacks, 1281–1286
and maternal mortality in a rural community, 1385–1390
among new mothers, 1399–1407

Yemen, traditional birth attendants, 959–962
